

SICKLY CHILDREN GROW RUGGED ON YEAST

Give It to Them in Pleasant
Tablet Form Combined
With Iron.

Usually Brings Decided Results in
in a Few Days

The reason many children become weak, thin, puny and run-down is because their food is actually starving them to death!

This is an actual fact. Modern cooking methods, it has been found, rob many of our healthiest foods of their most important element—vitamins. Without the proper amount of vitamins in our systems, none of us can hope to be strong and well, no matter how much we eat.

Recently scientists made the startling discovery that yeast was the richest known source of vitamins. But most people couldn't eat common baking yeast, so after much experimenting a way was found to put yeast vitamins in tablet form. This method is embodied in Ironized Yeast, which not only contains the best grade of yeast vitamins, but in addition, contains organic or vegetable iron and other reliable health-

builders.

Thousands of mothers are now giving their children Ironized Yeast and the results reported are almost unbelievable. Sickly children gain weight and strength almost as if by magic. Pale cheeks soon take on a rosy fresh color. Such symptoms as nervousness, poor appetite, sleeplessness, lack of energy, thinness, etc., disappear almost immediately and the child quickly regains the rugged health and strength that is his birth-right.

Get Ironized Yeast for your children—or for yourself—today. It is pleasant to take, keeps indefinitely, and costs about the same per dose as ordinary yeast, but is much more effective. Each package contains 10 days' treatment and costs only a dollar, or 10c a day. Special directions for children in each package. Sold at all druggists. Made by the Ironized Yeast Company, Atlanta, Ga.

UNIVERSITY RECORD BROKEN
WITH REGISTRATION OF 1583
Chapel Hill, Oct. 17.—All past attendance records are broken by this fall's registration at the University.

To date, 1583 students have registered. The freshman class alone numbers 535.

There are always about 200 late comers, so that before the college year is over the University could have nearly 1800 students if it could take care of them. But it cannot. Living quarters, classroom space and eating facilities are strained to the utmost.

The cornerstone of the first of the new buildings to be erected with the money voted by the 1921 legislature was laid by the Grand Lodge of Masons last week. It is hoped that with-

in six years the University will have accommodations for 3,000 students. The rate of growth in the number of high school graduates in recent years makes it certain that there will be that many applicants by 1927.

One factor that increases attendance so rapidly is the expanding opportunity for poor students to support themselves while they get an education. The University maintains a self-help bureau that finds all sorts of jobs for young men. Several hundred earn their expenses in whole or in part while at Chapel Hill.

RUMOR OF MONARCHIST
MOVEMENT IN TYROL.

Berne, Oct. 13.—Disquieting news continue to reach here from the Austrian Tyrol concerning the strong monarchist movement there. Osten-

"Help!"

A FIRST NATIONAL
ATTRACTION

Roaring Rivers and Fire-Girt Forests—real men and splendid women—beasts of play and beasts of prey!

They startle and delight you as only one other backwoods drama ever did.

Lon Chaney, Lewis Stone, Betty Blythe and Big Cast in

NOMADS of the NORTH

FROM THE NOVEL BY

James Oliver Curwood

And What a Story!

Picture it! Raoul Challoner with his wife, Nanette, and her baby lost to the world in their little cabin in God's Great Wilderness—happy in their hiding place free from law's injustice, their only friends a big black bear and a wolf-dog. Then comes O'Connor of the North West Mounted to take them back. And as man and wife and child, bear and dog, start down on the trail that leads straight to the gallows their whole wide world bursts into flame.

A forest fire so real that it staggers you! A battle through so fierce that it awes you. And a finish so fine that you'll cheer it!

You'll have to come early if you
want to get in tomorrow.

sibly the Tyrolese desire to proclaim an independent republic in alliance with Bavaria, where there is also a powerful monarchist party, eager to restore the Wittelsbach dynasty. It is now known that the Austrian, Hungarian and German monarchists are working hand in hand, and that large contingents of troops have recently been moved from Bavaria to the Tyrol.

How seriously these monarchist movements are taken by the Swiss Government is shown by a statement just made by Minister Motta in the Swiss Parliament that events in the Austrian Tyrol greatly affect Switzerland, which cannot be indifferent to them, and that if Austria should become entirely disrupted the Austrian province Vorarlberg, with a population of about 450,000 should be free to decide its destiny. This really means that it should be free to join Switzerland, a proposal which, as long ago as May 11, 1919, the people of Vorarlberg accepted by a referendum in which 81 per cent. of the votes were affirmative. At that time, however, Switzerland declined to accept Vorarlberg as the twenty-sixth Canton, on the ground of the Euro-

pean complications which must arise, and also because she did not wish to weaken Austria further.

Vorarlberg occupies an important position adjoining Eastern Switzerland, and is mainly a productive agricultural country, its few industries—silk weaving and embroideries—being owned by Swiss.

The presence of Hungarian troops in Burgenland, which the Hungarian government says it cannot recall, and which decline to depart, is now considered as a prelude to the restoration of the Hapsburg dynasty in Austria and Hungary. Meanwhile, ex-Emperor Charles remains at his rented castle near Lucerne. Spain has now definitely declined to receive him, and as no other country will do so the Swiss Government has no alternative save to keep him.

ROCKY MOUNT SALES

FOR THE WEEK.
Rocky Mount, Oct. 17.—Total sales for the past week on the local tobacco market amounted to 643,048 pounds, which sold for \$194,328.23, according to official figures announcement Saturday morning by Supervisor of Sales J. H. Cuthrell. These figures in-

dicate that the average for the week was \$30.22 per hundred lbs. which represents a substantial gain over last week's average price.

The total sum turned into the business and farm channels of the section through the local tobacco market this season has now passed the million dollar mark as Mr. Cuthrell's figures this morning show that the total sales for the season to date amounted to 4,419,002 for \$1,064,445.24, or a general average for the season of \$25.24 per hundred pounds.

The higher tobacco prices of this year are most clearly reflected by a comparison with last year's figures. While last week's sales average \$30.22, sales for the same week last year averaged only \$21.34, there being 1,053,028 pounds sold in comparison with 643,048 pounds this week.

To date this season's sales have aggregated 4,416,002 pounds at an average price of \$25.24. These figures are to be compared with the figures up to the same date last season when 5,723,838 pounds were sold for \$1,155,471.81, or a general average of \$20.20, per hundred pounds. The comparison, therefore, shows the

market to be much stronger this year and with much satisfaction prevailing among the growers.
